The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 1 and 4 are rejected under 35 U.S.C. 103(a) as being unpatentable over Goblen in view of Aiazzi.

Goblen shows a nail pulling tool having a lever arm 13, a base plate 5,6,7,8, a means 12 for pivotally attaching the lever arm to the base plate, a first gripping jaw comprising a nail lifter 19, a second gripping jaw comprising a nail lifter 16.

Aiazzi teaches that the lever arm may have a portion of reduced width at one end.

To provide at the end of the Goblen lever a portion of reduced width would have been obvious for one skilled in the art at the time the invention was made in view of the disclosure of Aiazzi. One of ordinary skill in the art would have been motivated to do this in order to provide additional clearance for the end of the handle to engage under the head of a nail.

Claims 2-3 and 5-7 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Claims 8-9 are allowed.
